Entrance qualification for universities of applied sciences

Only to be completed if you are applying for a Bachelor's degree program. Applicants for Master's degree programmes are requested to provide information on the acquisition of a first professionally qualifying university degree or a degree from a state or state-recognized university of cooperative education in the course of the application.

If you do not yet have your certificate, please state the educational qualification you are aiming for and submit the certificate as soon as possible.

I own:

- the general higher education entrance qualification
- the entrance qualification for universities of applied sciences
- the subject-specific higher education entrance qualification in the subject area: _____
- a vocational school qualification in accordance with the framework agreement on vocational schools KMK (e.g. state-recognized educator, curative education nurse, etc.)
- Completed state-regulated vocational training of at least 2 years and at least 3 years of professional experience in the learned profession (For university admission you must also pass a university entrance examination. We will discuss this with you after receiving your application).
- a passed master craftsman's examination
- a further training qualification (in accordance with § 53 or § 54 BBIG, § 42 or § 42a HwO)
- a certificate of competency for the nautical or technical ship service in accordance with Ship Officer Training Ordinance (SchOffzAusbV)
- a certificate of education equivalent to the German university entrance qualification

Recognition of academic achievements already acquired

You can apply for coursework and examinations already completed at other universities to be credited towards your studies at the FHD. This may shorten your study time. You can combine your application for credit transfer with an application for placement in a higher semester. We will contact you for further information once we have received your application.
